Introduction

In the context of OpenQAsS project three websites were developed for different purpose and function:

- <http://openqass.itstudy.hu> – information site of the project for public use
- <http://openqass.itstudy.hu> (only registered and logged-in users) – collaboration site for the project partners
- <http://oqacourse.itstudy.hu> – collaboration site for the VET teachers; in the future: learning site for the IQAM (Institutional Quality Assurance Manager) course

This document presents the structure of all three portals.

Knowledge repository and public project portal

The *openqass.itstudy.hu* is public, completely open project information site for everybody, where its content is available in four languages: English, Spanish, Italian and Hungarian. The content of the site is accessible from the Main Menu on the top of the page.

Home

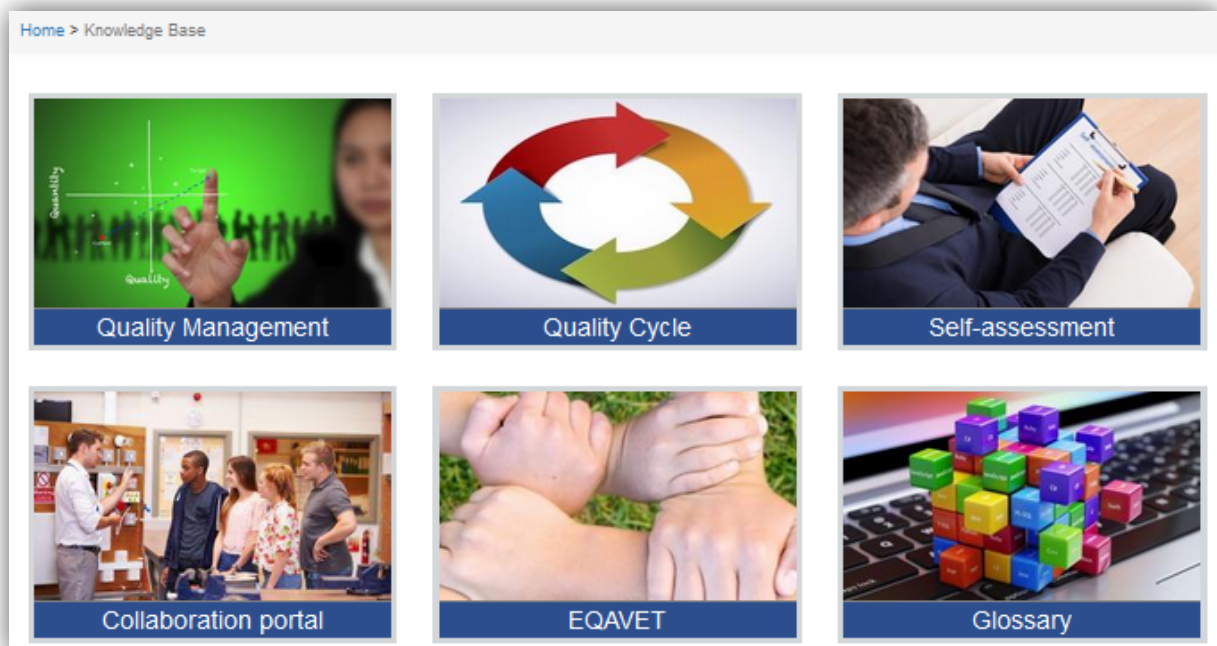

The *Home* page contains short description of the project, useful links, gallery of events, partners and *Login* field.

This project has been funded with support from the European Commission.

This publication [communication] reflects the views only of the author, and the Commission cannot be held responsible for any use, which may be made of the information contained therein.

Knowledge Base

The *Knowledge Base* includes the following categories:

Quality Management

Contents in relation to quality assurance

Quality Cycle

Description of quality cycle and applicable tools for QA: PDCA Cycle; Project Planning Matrix; SWOT-analysis; Pareto-diagram; Ishikawa-diagram

Self-assessment

Ensures the opportunity to complete self-assessment.

Collaboration portal

Direct link to the collaboration portal.

EQAVET

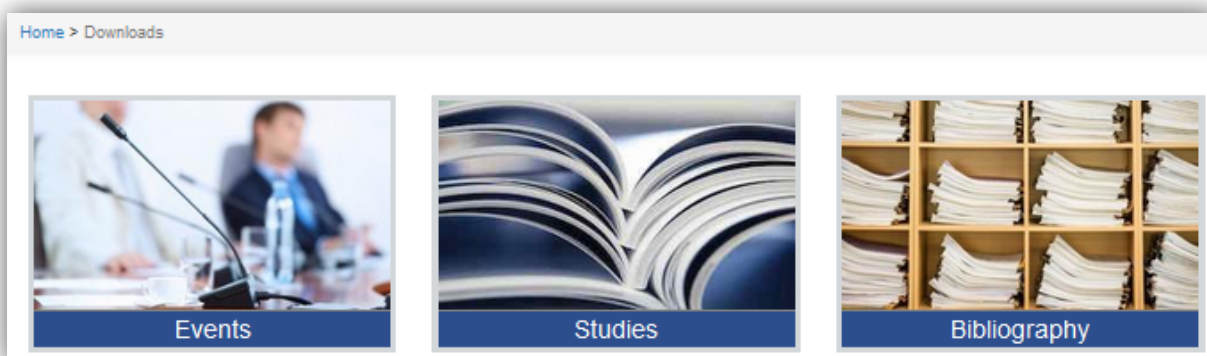

Brief description of the European framework, its aims and the structure.

Glossary

Terms and definitions used in quality assurance.

Downloads

The content project-related can be downloaded by anyone from here free, publicly available.

Events

Documents and reports related to project events.

Studies

Publication page shall include the results of project.

Bibliography

Relevant scientific literature on the Internet can be accessed in the area of quality assurance.

Certificate

Introduction of IQAM (Institutional Quality Assurance Manager) course is included here, as one of the main objective of the project.

Collaboration portal for projects partners

This section available only for project partners, login is required. In this section are proprietary materials.

Forms

The evaluation questionnaires to be filled are available from here.

Calendar

By using it is easy to keep track of important events and deadlines all in one place.

Settings

The following menus are available by choosing it: user settings, password change, forum tracking etc.

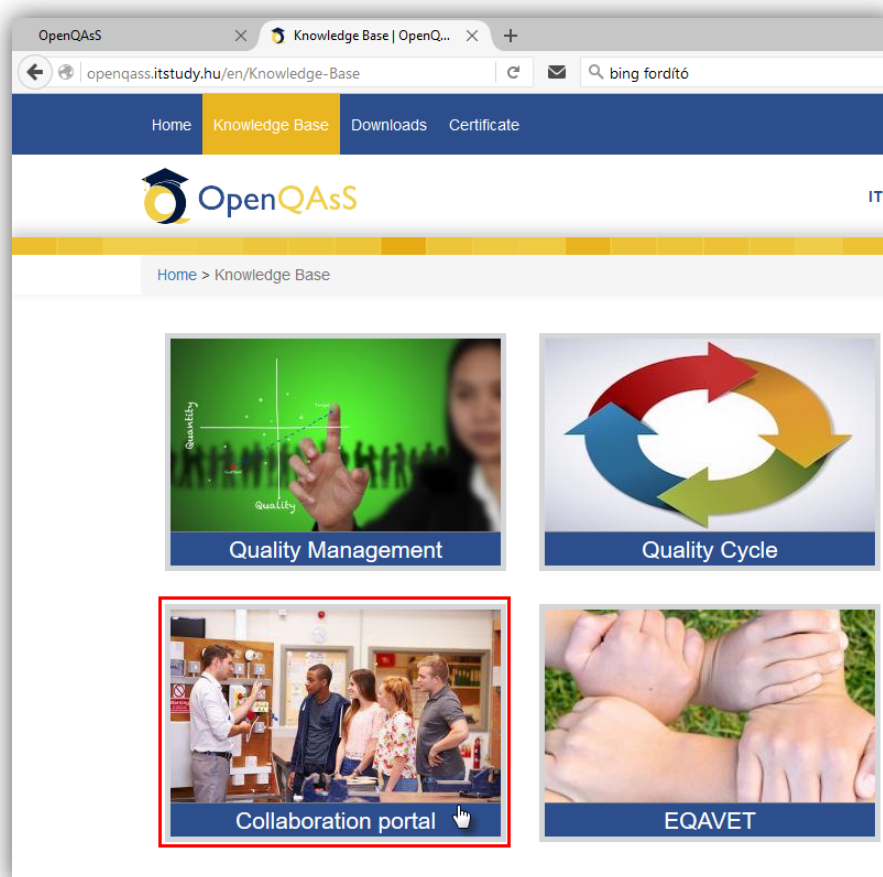

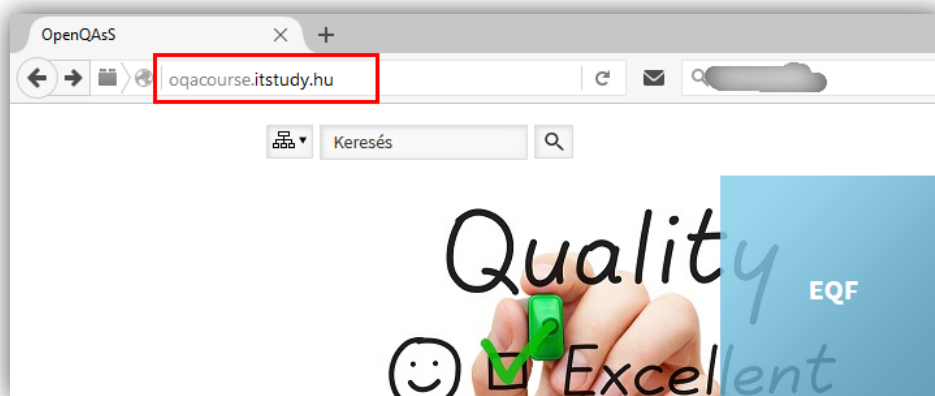

Log out

When access is no longer needed, the user can *log out* (log off, sign out or sign off).

Collaboration portal for VET teachers

Accessing site

You can access directly the online collaboration portal on oqacourse.itstudy.hu or from *Knowledge Base* page on Public Project portal.

The portal materials are accessible in four languages: English, Spanish, Italian and Hungarian. A landing page element appears on your running browser as your language settings on own computer, but switching between menu languages is also available.

Login to site

The portal may be used after pre-registration and registration. User name and password required for entering the site.

Structure of site

Courses

If you are logged in, you can reach all content in four languages, by choosing from color menus on the left side.

The courses include the topics for processing daily, related quotes, voting on the subject, and some elaborative detail questions in the blog post.

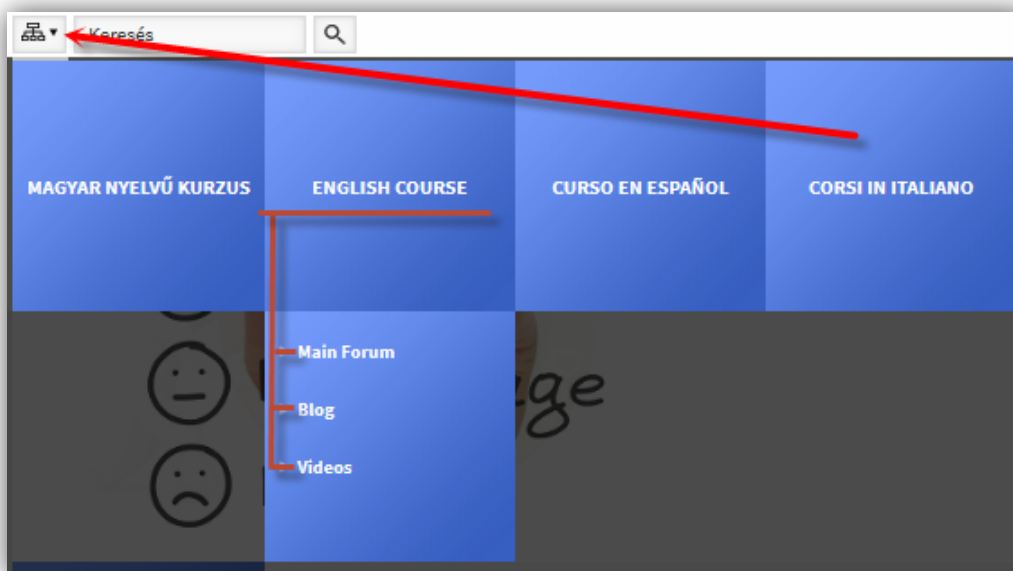

The content of the courses are flexible, the partners can change them according to their needs. Persons with appropriate rights (Tutors and teachers) can edit the content.

TURN EDITING ON

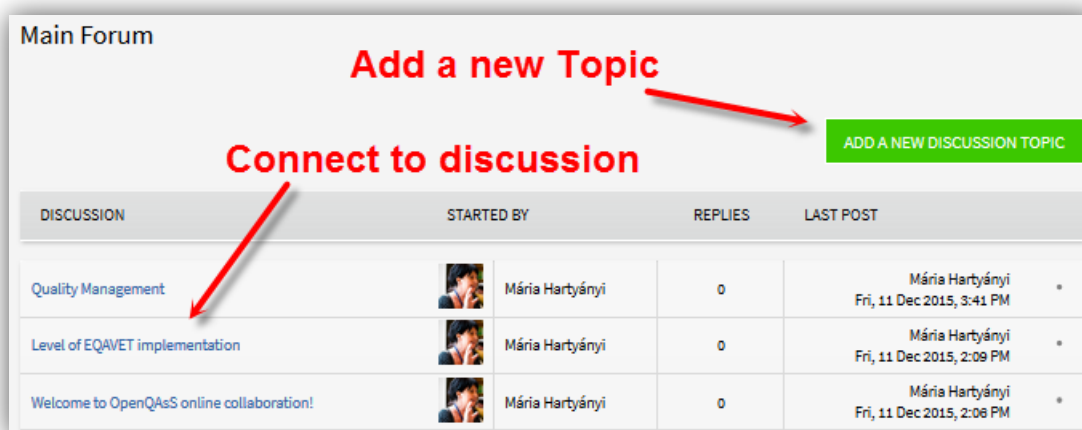

Other contents - available from the course

The Forum, the Video Library and Portal Blog are always available at the top on the site from the fast menu-regardless of the current position.

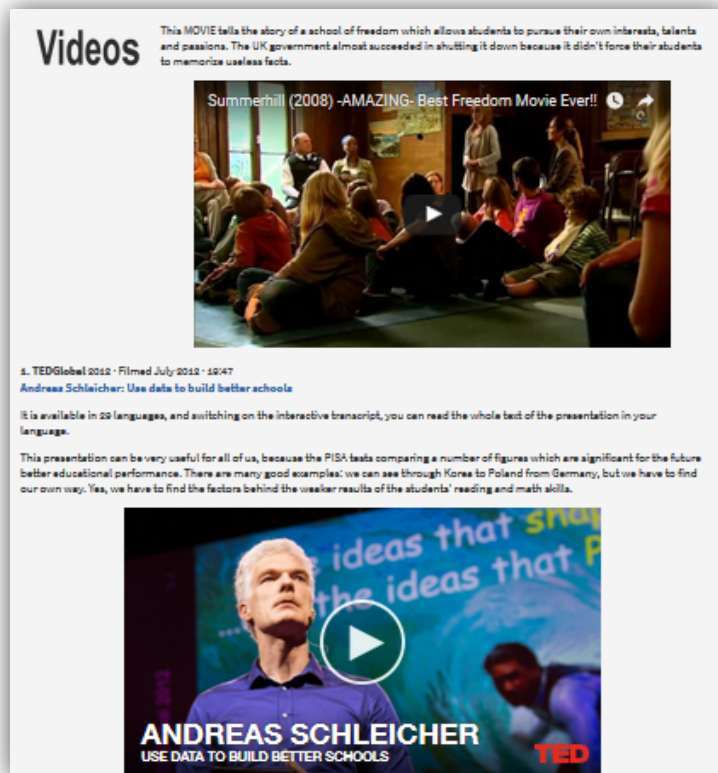

Main Forum

It is a tool for communication among the participants. All participants can use it, you can start your own Topic; and you can join to other's conversation.

Videos

The courses are complemented by a video collection that includes videos related quality assurance, and education. The videos are keynote conversations, you can refer to them on the teachers consultation.

Blog

The daily tasks of the participants are to explain their opinion in certain issues on the personal blog entries. You can add tags to your own posts, thereby readers can filter the certain topics.
