Consultation with teachers working in Vocational Education

Within the project, Trebag Ltd organised a consultation for pedagogues working in the Hungarian vocational education. The conference and workshop named „Quality Assurance in Vocational Education was held on 25th May 2017 in Budapest, in SZÁMALK-Szalézi Vocational School.

Date (dd-mm-yyyy)	9 th event: 25th May 2017
Number of participants	26
Location	SZSZ Szg
Activity Leading Organisation	Trebag
Participants	Pedagogues <ul style="list-style-type: none"> • Teachers • Principals • Stakeholders

Aim of the Event

The aim of the event was to show the results developed in the framework of OpenQAsS Erasmus+ project (<http://openqass.itstudy.hu/>) in a consortium of experts from UK, Ireland, Spain, Italy and Hungary as well as to present lectures on EQAVET and other QA issues and to show the online platform for the training of QA experts. The event had an interactive, practical part, where participants got introduced to the online course platform and could try it.

15:00 – 16:00	Introduction to the online platform Gábor Lajtos, iTStudy Oktató és Kutatóközpont

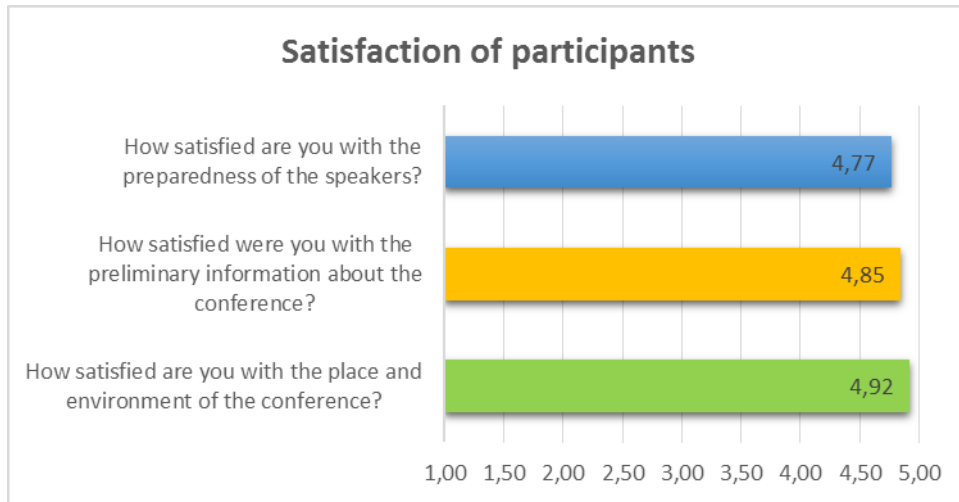

Answers to the evaluation questions

The conference was very successful according to the feedbacks received by the participants.

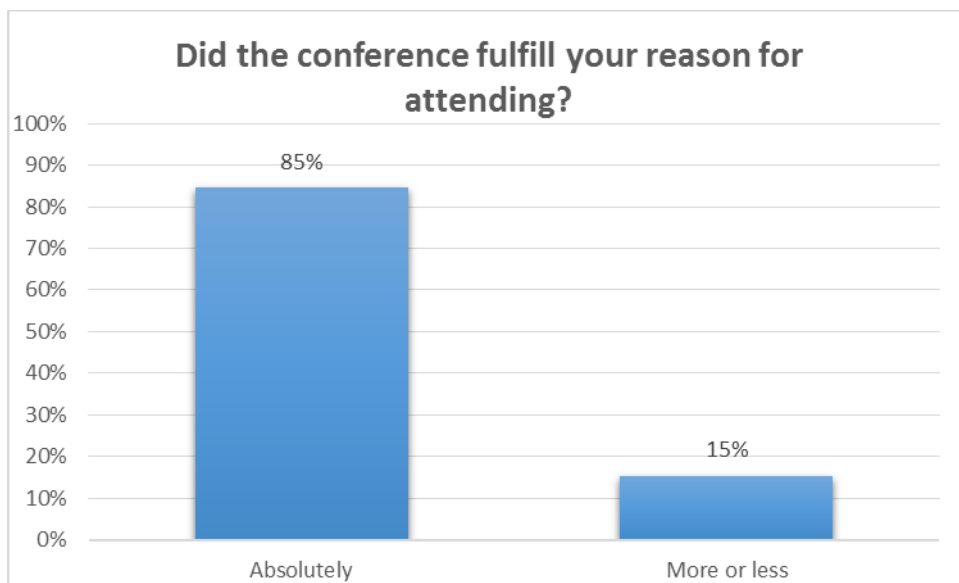

The evaluation form was completed by all of the participants. The results are summarized on the charts below:

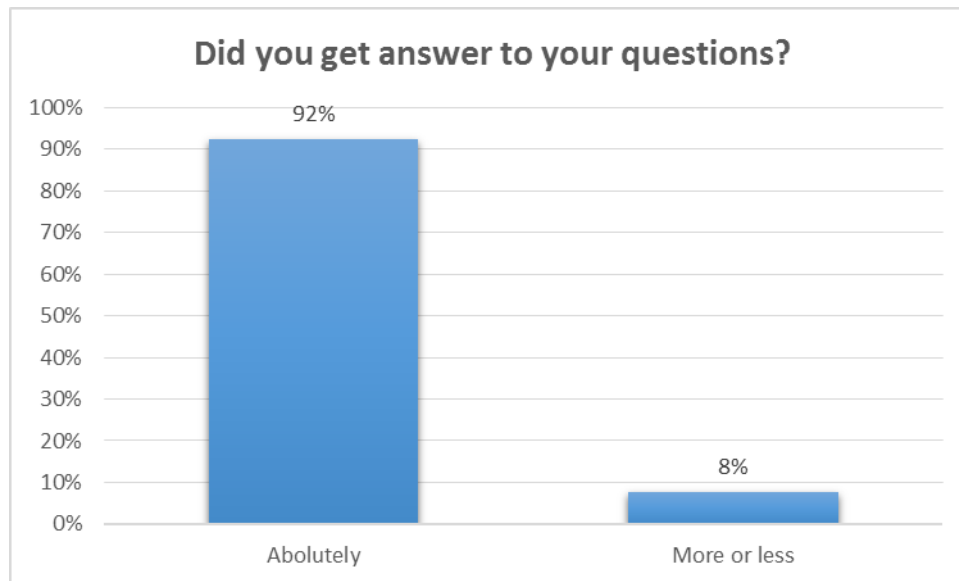

77 % of the participants were teachers and 23 % directors.

Participants were absolutely satisfied with the organization, the environment and the presentations of the conference.

Most of the participants (85%) think that the conference met their expectations.

Most of the participants (92%) got answers to their questions during the conference.

For the open question: "What is your opinion on the present situation of the quality management of the Hungarian Vocational Education" the answers consistently stated that it needs reconsideration and development.

As a conclusion we can state that the project and its trainings and online platform could be answers for a gap experienced in this field in VET, and we hope that it will satisfy needs and expectations.
