IQAM Open Learning Content – planning course components and *CEDEFOP Book under Moodle as learning content for IQAM course* – Ken Currie

My presentation is based on these files:

http://openqass.itstudy.hu/en/elfinder#elf_l1_TzNfT3BlblFBc1NfU3lzdGVtX1BsYW5fY W5kX1Byb3RvdHlwZS8wMy1BMV9TeXN0ZW1fQ29uY2VwdC9Xb3JrL1hNTF9GaWxlcw

that I upload and document on the *Forum* before the meeting. I will not produce specific slides as this folder contains all files including a write-up. See *Forum post #59*:

These in turn were shown via the **Cedefop Handbook** from this CAPDM Moodle:

http://demo.capdm.co.uk

generated from the *openqass-oqa-wb.xml* file and its *openqass-oqa-mf-xml* 'manifest' file

Details are in *Forum post #34* here:
